

MD. Shakil Mia

Bashundhara RA, Dhaka-1229,
Bangladesh
01988357111
Sk.shakil176464@gmail.com

Motivated final-year Computer Science and Engineering student with a CGPA of 3.46/4.00, having successfully completed 145 credits and currently awaiting internship completion. Skilled in **C++, Python, SQL, R, JavaScript, HTML, CSS, database management, Overleaf(Latex), and basic graphic design using Canva**. Experienced in developing academic software projects and creating visual content such as Poster Design, banners, and presentations. Experienced in software development, machine learning research, and academic writing. First author of an internationally published conference paper presented at the International Conference on Frontiers of Engineering and Emerging Technologies (FET'26). Eager to apply technical knowledge, creativity, analytical thinking, and problem-solving skills in a professional environment while contributing to organizational growth and innovation.

EDUCATION

American International University-Bangladesh

B.Sc. in Computer Science and Engineering
Major in Information Systems
Current CGPA: 3.46/4.00
2025, Final Semester Ongoing

Dhaka, Bangladesh

2022-Present

Notre Dame College-Mymensingh

Higher Secondary Certification (Science)
GPA **5.00/5.00**

Mymensingh, Bangladesh

Dhatiapara High School

Secondary School Certificate (Science)
GPA **5.00/5.00**

**Sherpur, Mymensingh-
Bangladesh**

SOFT SKILLS:

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

GitHub:

<https://github.com/Sk-shakil99>

TECH SKILLS:

- Programming Languages: C++, C#, Python, Java, JavaScript, PHP
- Web Technologies: HTML, CSS, PHP, MySQL, AJAX
- Database: MySQL, SQL
- Machine Learning & Data Analysis: Python, R, Data Preprocessing, Data Visualization
- Research & Documentation: Overleaf (LaTeX), Academic Writing, Research Paper Preparation
- Version Control: Git, GitHub
- Development Tools: Visual Studio, Code::Blocks, VS Code
- Design Tools: Canva (Poster Design, Banner Design, Presentation Design)
- Microsoft Office: Word, Excel, PowerPoint

Academic Experience:

1. Pharmacy Management System-

<https://github.com/Sk-shakil99/Pharmacy-Management-System.git>

- Web Application PHP & MySQL-based Pharmacy Management System with admin and customer roles. Features include product CRUD, search and filter, cart management, prescription upload, data

validation, and secure user management, providing a complete solution for pharmacy inventory and customer interactions.

2. Car Management System-

<https://github.com/Sk-shakil99/C-sharp-project-apply-car-management-system.git>

- A C#-based Car Management System that allows users to manage vehicle details, owners, service records, and transactions. Features include CRUD operations, search and filter functionality, and reporting tools, providing an organized and user-friendly interface for efficient car management.

3. Hospital Management System-

<https://github.com/Sk-shakil99/Hospital-Management-System.git>

- Hospital Management System for doctors to manage patients, appointments, and reports. Features include AJAX patient search, profile management, real-time notifications, and responsive dashboard with modern UI built using PHP, MySQL, and TailwindCSS/FontAwesome.

4. GYM Management System-

<https://github.com/Sk-shakil99/GYM-management-system.git>

- A Java-based Gym Management System designed to manage members, trainers, schedules, and payments efficiently. Features include CRUD operations for members and staff, attendance tracking, membership plans, and reporting. Provides a simple, user-friendly interface for effective gym administration.

5. GLUT-Project

<https://github.com/Sk-shakil99/GLUT-project-in-Computer-Graphics-.git>

- A C++ OpenGL (GLUT) project featuring three interactive 3D scenes: a city with roads and buildings, an ocean with a boat and underwater view, and a mountain sky scene with a plane. All scenes include mouse & keyboard controls, adjustable speed, and immersive sound effects for a dynamic 3D experience.

6. Research Paper

<https://github.com/Sk-shakil99/Research-Paper>

- First-author research paper titled "Predicting Maternal Health Risk Levels in Rural Bangladeshi Patients Using Supervised Machine Learning." Developed supervised machine learning models for maternal health risk prediction, performed data preprocessing and model evaluation, and prepared the manuscript using Overleaf (LaTeX). Published and presented at the International Conference on Frontiers of Engineering and Emerging Technologies (FET'26).

7. Graphic Design

<https://github.com/Sk-shakil99/Graphic-Design.git>

- A collection of graphic design work including event posters, social media designs, banners, and presentation graphics created using Canva.
-
